

Name: Ken Lin

SID: 006198682

Github repository of my code : <https://github.com/DehNutCase/CSE-461/tree/master/lab3>

I believe all parts are completed successfully.

However, I don't know how many points they are worth (the lab 3 page doesn't say), so I assumed 20 points.

20 Points

Report:

Part I, Basics:

Create Hello World in Android emulator.

Screenshot:

Code:

activity_main.xml

```
<?xml version="1.0" encoding="utf-8"?>
<!--most of code taken from
https://www.tutorialspoint.com/android/android\_hello\_world\_example.htm-->
<RelativeLayout xmlns:android="http://schemas.android.com/apk/res/android"
    xmlns:tools="http://schemas.android.com/tools"
    android:layout_width="match_parent"
    android:layout_height="match_parent" >

    <TextView
        android:layout_width="wrap_content"
        android:layout_height="wrap_content"
        android:layout_centerHorizontal="true"
        android:layout_centerVertical="true"
        android:text="@string/hello_world"
        tools:context=".MainActivity" />

</RelativeLayout>
```

strings.xml

```
<resources>
    <!--most of code taken from
https://www.tutorialspoint.com/android/android\_hello\_world\_example.htm-->
    <string name="app_name">Lab3HelloWorld</string>
    <string name="hello_world">"Hello, CSE 461-660"</string>
    <string name="menu_settings">Settings</string>
    <string name="title_activity_main">MainActivity</string>
</resources>
```

MainActivity.java

```
package com.example.lab3helloworld;

import androidx.appcompat.app.AppCompatActivity;

import android.os.Bundle;

public class MainActivity extends AppCompatActivity {

    @Override
    protected void onCreate(Bundle savedInstanceState) {
        super.onCreate(savedInstanceState);
        setContentView(R.layout.activity_main);
    }
}
```

```
}  
}
```

Part II, Simple Calculator:

Create Simple Calculator and replace buttons of operators with images.

Screenshot:

Code:

Activity_main.xml

```
<?xml version="1.0" encoding="utf-8"?>
<LinearLayout
    xmlns:android="http://schemas.android.com/apk/res/android"
    android:orientation="vertical"
    android:layout_width="fill_parent"
    android:layout_height="fill_parent">
    <LinearLayout
        android:layout_width="match_parent"
        android:layout_height="wrap_content"
        android:id="@+id/linearLayout1"
        android:layout_marginLeft="12pt"
        android:layout_marginRight="12pt"
        android:layout_marginTop="4pt">

    }
}

```

Part III, Android Fragments:

Simple application with 2 fragments, Fragment A and Fragment B. When the user clicks on a button, it presents Fragment A with a yellow background. When the user clicks on the other button, present Fragment B with a blue background.

(Colors aren't the same as in the example.)

Screenshot:

Code:

Activity_main.xml

```
